# Current Version

Comments:

- Navbar items should be visually divided into "Logo", "Menu". "Search Bar" and "User Info" areas.
- There is generally not enough data that justifies a search bar per table.
- There are generally not enough entries to justify entry filters.
- There are generally not enough entries to justify a page search.
- Make sure all the data fields are helpful on "Current Initiatives" as it already feels crowded.
- The "Current Initiatives" table should be taking around 60% of the dashboard width if it keeps having most of the data fields after revision.
- The tables should stack on mobile.

Proposed Version

Header:

1. Switch background-color to #0A2240

2.Add AIPAC logo next to OLDB-UAT (Make font extra bold)
Image URL:

```
https://image.act.aipac.org/lib/fe8313727d6d027b73/m/1/
0f00d2de-f3b1-4f04-807d-667237de069a.png
```

3. Keep menu items with current icons

4. Switch searchbar to (bootstrap):

```
<form class="form-inline md-form form-sm">
    <i class="fa fa-search" aria-hidden="true"></i>
    <input class="form-control form-control-sm ml-3 w-75"
     type="text" placeholder="Search" aria-label="Search">
</form>
```

*switch line color, text color and fa fa-search color to white
https://mdbootstrap.com/components/bootstrap-search/

5. Add user information, with person fa fa-icon an e-mail to the right.

Dashboard:

1. Switch Title/Subtitle color to #0f9ad6.
2. Use the default Hoverable rows (bootstrap) for tables.
3. Make the "Current Initiatives" table the same width as the "Current Parent Meetings".
4. At any given desktop screen width, they should occupy 90% of the space,
the remaining 10% should be used for padding/margin or divider colum width, whatever
you are using to separate the tables.
5. The tables should stack and scale on mobile, and take 95% of the screen width.

Footer:

1. Switch background-color to #0A2240.
